

“Gazprom joins NGVA Europe”

Russia’s Gazprom, which is supplying 40% of Europe with natural gas, joins NGVA Europe from the start of 2009 as A-Level member.

Gazprom will also take a seat on the Board of Directors of the association.

As a member of NGVA Europe, Gazprom joins the club of other European natural gas and biomethane companies like ENI S.p.A. (Italy), Gas Natural (Spain), Gasrec Ltd. (UK), Gasum Paikallisjakelu Oy (Finland), Greenlane Biogas (Sweden), Salzburg AG (Austria) and Swedish Biogas International (Sweden).

NGVA Europe is the only European association to promote natural gas and biomethane as vehicle fuels in the transportation sector.
